“We take a personal interest in making sure you receive the best service and attention possible. The play equipment you purchase is high quality equipment and lives up to everything we say it will”

-Play Poles Team

Play Poles Pty Ltd has been established as a family business since 1993. Play Poles is proudly Australian owned.

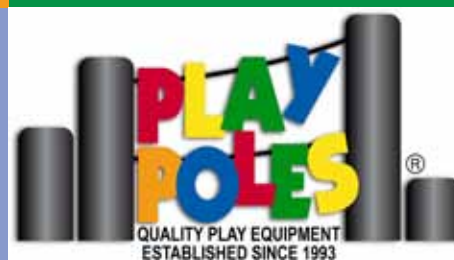

We continue to develop safe, robust and economical playground equipment for private and public schools, pre-schools, childcare, kindergartens, council and resort developments throughout Australia.

We strive to deliver quality commercial playground equipment and associated products. Our team can custom build playgrounds for individual project needs. Play Poles has a wide selection of play and fitness equipment complete with softfall, shelter and shade structures.

Play Poles understands the desire for quality products and service delivery. The team at Play Poles prides themselves on their work and their testimonials are evidence based.

Play Poles is listed as a Preferred Supplier for The Department of Education and Local Buy.

Talk to the team at Play Poles Pty Ltd about your project. We can custom build a playground for you.

Play Poles offers a wide range of playground designs to cater for different project needs.

Play Poles use a variety of materials

- Stainless steel
- Aluminium
- Galvanised steel
- HDPE Polymers
- Recycled polymers
- Wide range of powder coated finishes

Each playground offers activities for children of all ages helping them to learn and develop their skills. The use of playground equipment also assists in the development of social skills such as sharing and cooperation. Activities in the playground generally address the following.

- Muscular strength, breathing and endurance
- Refinement of balancing skills
- Development of co-ordination skills
- Encourages bilateral and reciprocal arm movement
- Provides a variety of sensory experiences (tactile, vestibular, proprioceptive and visual stimuli)
- Improves perception of space, body awareness and judgement (position, direction, size and space)

Play Poles playgrounds are designed to be visually impacting enticing children to have fun. Play Poles playgrounds are highly durable and great value for money.

Play Poles can assist your playground design by choosing from a variety of designs and add-on options as well ensuring your design complies with Australian Standards.

Play Poles abides by the Australian Standards to ensure all their playgrounds have the correct fall height, safety surfacing and access.

Play Poles offers a great range of rope courses for playgrounds.

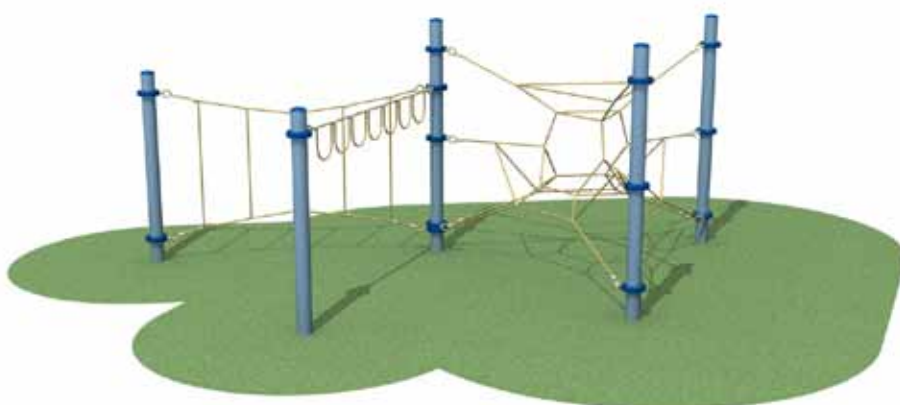

## Rope Course CE001

Maximum Height:  
2.5m

Fall Zone:  
50.1m<sup>2</sup>

The rope is made up of twisting synthetic fibre over a steel wire core making it highly durable in all weather conditions. The courses offer children interactive play time that assists their coordination, balance and agility. There are low-level elements for pre-school ages through to challenging higher level activities for bigger children.

Play Poles also offers a 4m and 6m Activity Net that makes a great addition to any playground. The Activity Nets allow a large amount of children to play in a small area. The Activity Nets are designed to challenge children from 5 years and upwards.

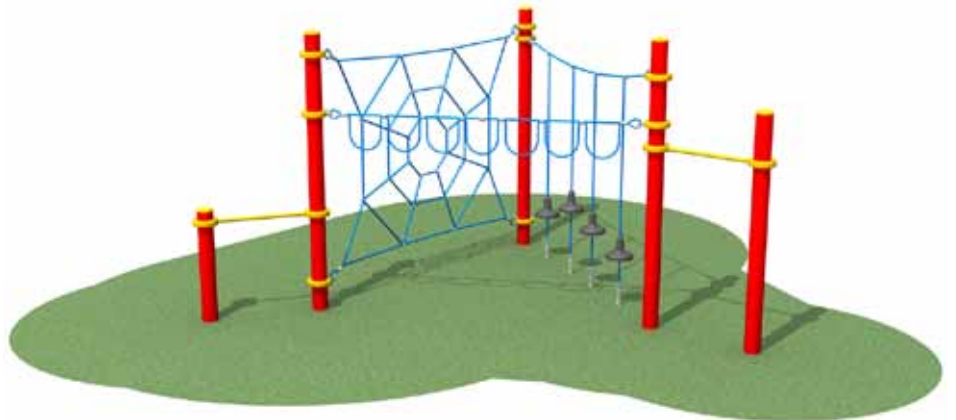

Images are indicative only & colours may vary. Colour choice may not be an option depending on stock

## Rope Course CE002

Maximum Height:  
2.5m

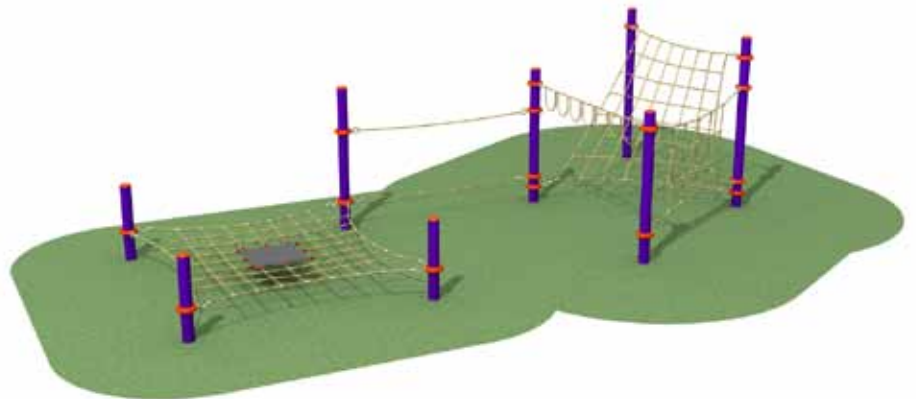

Fall Zone:  
40.3m<sup>2</sup>

## Rope Course CE003

Maximum Height:  
2.5m

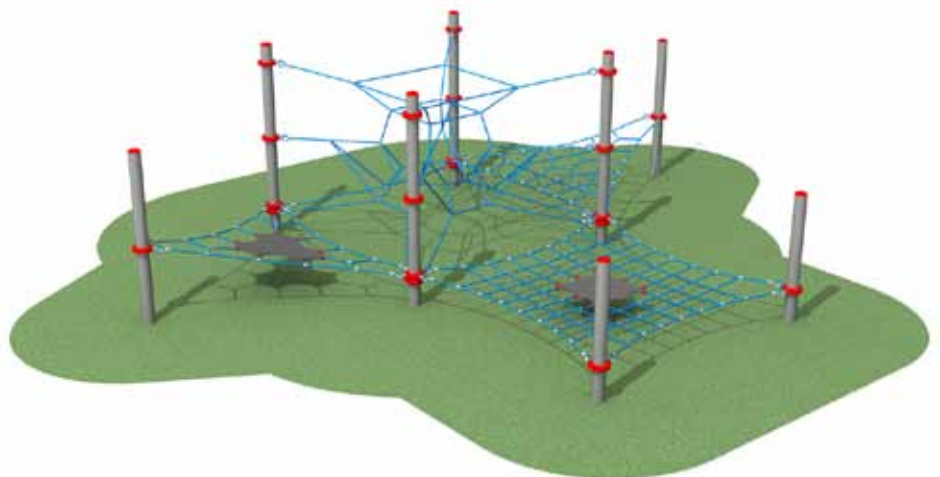

Fall Zone:  
86.6m<sup>2</sup>

## Rope Course CE004

Maximum Height:  
2.5m

Fall Zone:  
75.2m<sup>2</sup>

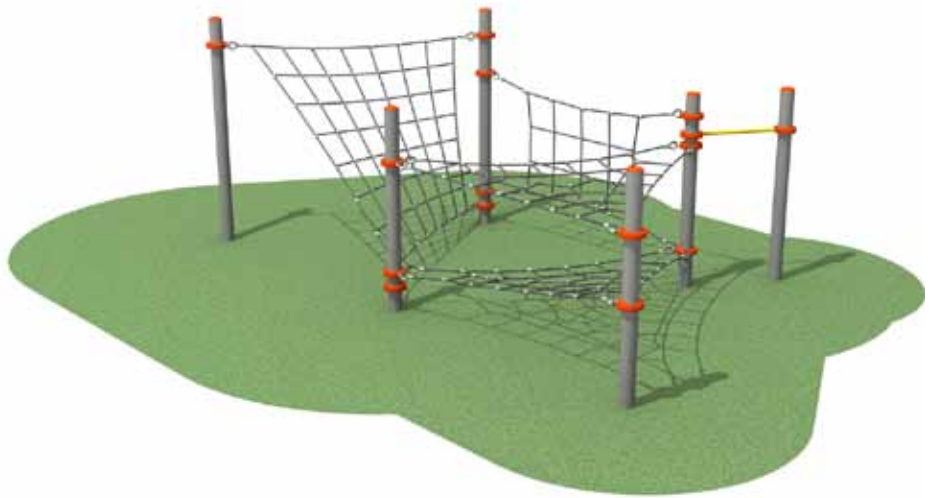

## Rope Course CE005

Maximum Height:  
2.5m

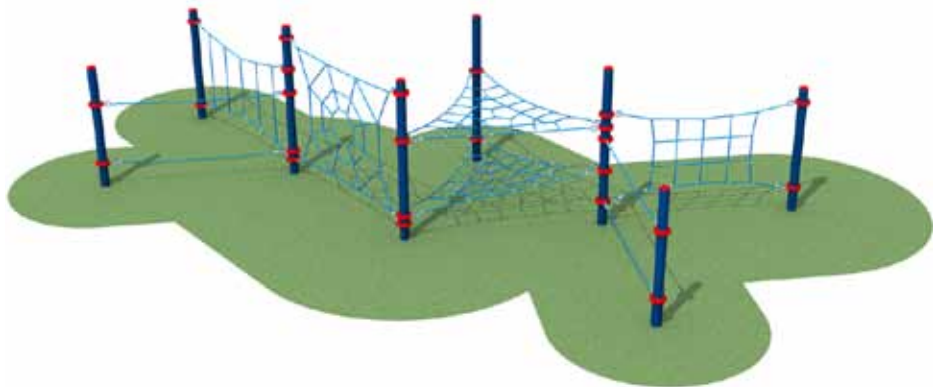

Fall Zone:  
57.6m<sup>2</sup>

## Rope Course CE006

Maximum Height:  
2.5m

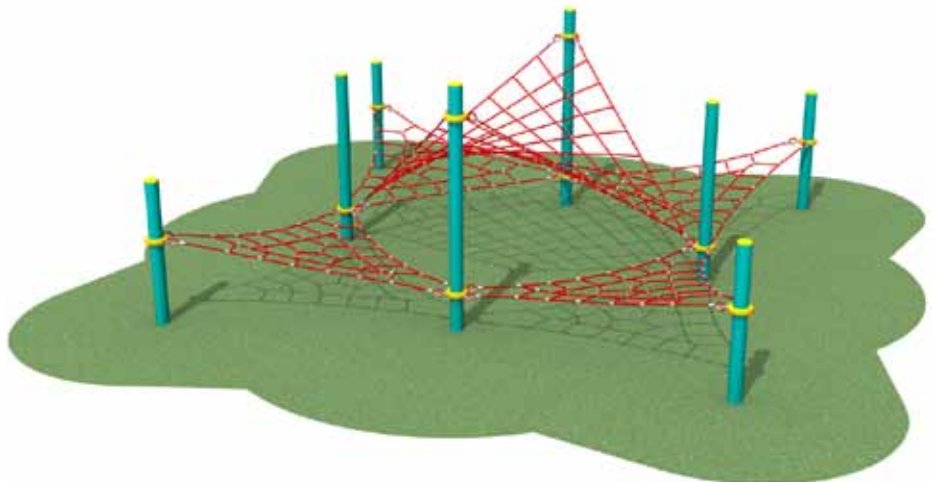

Fall Zone:  
77.2m<sup>2</sup>

## Rope Course CE007

Maximum Height:  
2.5m

Fall Zone:  
72.8m<sup>2</sup>

## Rope Course CE008

Maximum Height:  
2.5m

Fall Zone:  
113.8m<sup>2</sup>

## Rope Course CE009

Maximum Height:  
2.5m

Fall Zone:  
70.7m<sup>2</sup>

## Rope Course CE010

Maximum Height:  
2.5m

Fall Zone:

Our designs provide the opportunity for families to exercise together

Play Poles are proud to be the exclusive providers of Pedal Power playground equipment in Australia. Staying active is very important, but so is having fun! All Pedal Power equipment is designed for two people, encouraging social interaction and teamwork, but it can be used by individuals too.

Both adults and children can use the equipment as there are two seats set at different heights to allow for longer legs. The monorail, coaster and velocitron are stimulating products of Pedal Power that respond to the demand for interactive play and physical fitness:

- Great for children's exercise
- Encourages social interaction
- Promotes teamwork
- Ergonomically designed
- Irresistible colours, designs and characters
- Tough equipment, maintenance-free

## The Velocitron

As the Velocitron riders pedal, the speed increases and centrifugal force lifts the riders outwards, up in the air.

Images are indicative only & colours may vary. Colour choice may not be an option depending on stock

## The Coaster

The Coaster moves in a circular and up and down motion resembling the motions of a roller coaster.

## The Monorail & Mono Cars

The monorail consists of two or more bikes/ cars set on a track which adults and children can use. There are two seats set at different heights to allow for longer legs.

Play Poles has redesigned the internal mechanics of the monorail bikes to modernise the parts, to ease servicing and increase durability.

Play Poles have a new range of fitness equipment. The Beachfront Series is a range of stainless steel equipment featuring a single pedestal mount. As the equipment is built from stainless steel grade 316, and has stainless steel bearings, it is specifically designed for harsh coastal conditions and requires minimal maintenance.

The Beachfront Series is easy to use fitness equipment that improves strength, fitness, coordination and flexibility.

## Leg Press

SS-LP-2020

This apparatus strengthens the thighs and core muscles.

## Sit Up Bench

SS-SU-2020

This apparatus strengthens the muscles of the upper limbs, abdomen, hips, chest and waist.

## Elliptical Trainer SS-ET-2020

This apparatus provides a cardiovascular workout while improving flexibility of muscles and joints. It improves the aerobic function of heart and lungs.

## Tai Chi Wheels SS-TC-2020

This apparatus improves the flexibility of the shoulders, hips and knees.

## Chest Press SS-CP-2020

This apparatus strengthens back and arm muscles and improves heart and lung function.

## Air Walker SS-AW-2020

This apparatus provides excellent cardiovascular exercise while developing coordination and balance. It helps to improve flexibility and strength of lower limbs.

## Waist Twister SS-WT-2020

This apparatus relaxes the muscles of the waist and improves the flexibility of the waist and core.

## Dipper SS-DP-2020

This apparatus helps to strengthen shoulder and abdomen muscles.

## Overhead Wheels SS-OW-2020

This apparatus improves the flexibility of the body and physical coordination.

## Pull Up Tower SS-PU-2020

This apparatus will strengthen the muscles of the upper limbs and chest and improve the flexibility of the shoulder joints.

## Rider SS-RD-2020

This apparatus provides an overall cardiovascular exercise. The leg and chest muscles are stimulated while improving the heart and lung functions.

## Rotating Wheels SS-RW-2020

This apparatus strengthens the muscles of the upper limbs and improves flexibility of the shoulder joints.

## Surfboarder SS-SB-2020

This apparatus stimulates the muscles of the waist and increases the flexibility of the body.

## Arm Stretcher SS-AS-2020

This apparatus improves the flexibility of wrists, arms and shoulders.

## Bench Seat

- Set in concrete
- Bolted to existing concrete

All aluminium seating and table options are suitable for schools, playgrounds, parks, pools and more. These products are highly durable against weather conditions and chemicals as they do not crack, fade, splinter, rust or require painting.

## Stackable Bench Seat

- Portable seating
- Easily stored

## Outdoor Seating and Table

- Hassle free smooth finish table

Play Poles know that being sun smart outside is important, especially in our harsh Australian summers. Shade shelters are an attractive and effective way of protecting young bodies from the sun. Play Poles can design and install custom made shade shelters and roofing solutions to suit your new or existing playground. All Play Poles shelter structures are constructed of steel and have a customisable Colorbond roof.

## Rubber Flooring (Wet Pour)

### CSBR

Play Poles recommends CSBR. It has a wide variety of colour options that have minimal fade.

CSBR is available in rubber granules and comes in 18 colours with options for multi-colour blends.

## EPDM (Elastopol)

Most suitable for spot colouring. Has bright colour options available, however is prone to fading

## Synthetic Grass

Economical, long lasting and hard wearing.

Suitable for both indoor and outdoor use.

More tolerant to temperature extremes.

## Takura Softfall

New alternative to bark, lower allergies, minimal dust and fade.

## Sand

We can design and install sandpits, or layer sand as soft-fall for your playground.

## Softfall Border

An ideal soft edging to retain organic soft-fall.

Dear Play Poles,

Coolum State School contracted Play Poles to construct our new junior playground. During the quotation process we needed to ask some clarifying questions about the project. Bruce and Ford had no hesitation in coming back on site to discuss our questions and answer our concerns. They were able to integrate our ideas into their design. They were also able to integrate the shade structure into the overall design of the playground. During the building of the playground, we needed to make additions. These were accommodated without any problem. Our project was on budget and within negotiated timelines. The products are of a very high quality and last well. Another playground which Play Poles constructed some years ago has stood the test of time. Most of all we are really impressed with the aftersales service. We have no hesitation in recommending Play Poles.

Deputy Principal, **Coolum State School**

Hi Bruce,

Simply Sunshine Child Care Centre would like to thank Play Poles for the wonderful job they have done with our playgrounds. We contacted Play Poles to discuss the design idea we were looking for. Play Poles were more than happy to travel to Central Queensland to visit our centre and work with us to achieve our dream playground. Play Poles were extremely professional and cooperative to deal with. We were so impressed with our first completed playground that we didn't hesitate to get them back to do our second playground. Our play grounds have been designed with high quality equipment and look fabulous. Our families have made many comments on how wonderful the playgrounds look and our children love their safe, natural and interactive play spaces. Most all we are very impressed and we have no hesitation in recommending Play Poles.

Thanks Play Poles we are very happy customers.

Director, **Simply Sunshine Childcare**
